## EDUCATION

**Bowdoin College**, *Bachelor of Arts*  
**Double Major:** Mathematics and Computer Science

**Graduated May 2015**  
**Cumulative GPA: 3.85**

Honors: Dean's List every year; Math Department nominee for membership at two national math societies (AWM and SIAM)  
Course Highlights: CS: Data Structures, Algorithms, General AI, Nature-Inspired AI, Operating Systems, OSS Development, Security, Optimization and Uncertainty, Computational Geometry; MATH: Combinatorics, Modeling, Intermediate Linear Algebra, Analysis

**Make School**, *Founding Class Member*

**July 2014 – Jan 2015**

iOS Development: iOS fundamentals, design patterns, app and game development, Core Data, server basics, app design and marketing  
Computer Science Theory: data structures, algorithms, memory management, bit manipulation, sorting and searching, multithreading

---

## COMPUTER SKILLS

Languages: Extensive experience in Swift, Objective-C, Java; experience in C, Python, PHP; exposure to JavaScript, HTML, CSS  
Knowledge: Mobile/game/web development, machine learning, data mining, Unix, databases, security, quality assurance  
Tools: MySQL, Git, Node.js, MongoDB, Heroku, SpriteBuilder, SoapUI, Mathematica, Xcode, Vim, Emacs, Eclipse, Sublime

---

## PROJECTS

- ePlan: Developed a collaborative event planning iOS application in Objective-C, integrating Core Data and server backend
  - Melonace: Designed, coded, and shipped an iOS grid puzzle game in Objective-C with interactive user tutorial and high score
  - Built a Feedforward Backpropagation and a K-Nearest Neighbors neural network in Java for solving CAPTCHAs
  - Contributed to Ronald McDonald House's PHP website backend and worked with its managers to schedule volunteers online
- 

## EXPERIENCE

**Edmodo, Inc.**, *iOS Engineer*

**June 2015 – Present**

- Collaborating with Backend, Product, Design, and Support teams to build features, adjust specs, address user issues, etc.
- Migrating the app to Swift 3, restructuring navigation and architecture, building shared components and protocols
- Mentoring junior engineers and onboarding new engineers, constantly providing feedback; point person for code reviews
- Built/rewrote core features, including Assignment Center, Post Composer, Groups, Communities, and App Extension
- Migrated the client to use an entirely new backend and coded extensively in networking layers with comprehensive unit tests
- Learned and worked on the backend and became the team's trusted resource for server side communication and collaboration

**Bowdoin College**, *CS TA; CS and Math Tutor, Grader; STEM and Academic Mentor*

**August 2013 – May 2014**

- Helped students with labs (graphics, recursion, etc.); tutored individual students; graded upper-level math courses and CS labs
- Worked with students on time management, study skills, and college transition; advised first-years pursuing STEM fields

**L.L.Bean, Inc.**, *Software Quality Assurance Intern*

**May – August 2013**

- Tested and automated test suites for web services; participated in defining strategies, requirements gathering, and design review
- Extra projects: Developed Common Gate Interfaces using SQL queries to look up coupons, sales, and user information

**Bowdoin College Computer Science Department**, *Independent Researcher*

**May – December 2012**

- Mined and streamed massive data from Twitter using Python scripts and persisted the data in MySQL database
- Analyzed relationships between a doctor and his followers on Twitter to infer each follower's trust level on the doctor

**Bowdoin College Mathematics Department**, *Research Assistant*

**October 2011 – May 2012**

- Compiled data of atmospheric gas concentration across the globe to analyze climate change; proof-read academic paper drafts
- 

## LEADERSHIP AND ACTIVITIES

**Young Leaders 3.0**, *Book Contributor*, <http://www.youngleaders3.com/>

**August 2013 – November 2014**

- Wrote on overcoming family hardships in *Young Leaders 3.0*, a collection of inspirational stories from 24 young leaders

**Bowdoin College International Club**, *President*

**September 2011 – May 2014**

- Led 12 officers and over 200 members, planned monthly activities, organized large-scale events, created new club traditions

**Fullbridge Program**, *Awarded MVP on the top team*

**January 2013**

- Intensive two-week team-based program in communication, business research, financial analysis, valuation, and management

**California Annual Nobel Laureate Dinner**, *Student Presenter*

**November 2010**

- Presented a cryptography project to 10 Chemistry and Physics Nobel Laureates and to UC board members and professors
